#### BEAUTIFUL IMPROVEMENT AT THE POGUE HOME.

One of the handsomest improvements noted to Maysville's list of beautiful residences is that added to the Colonial home of Mr. and Mrs. Henry Edgar Pogue on the hillside west of the city. The addition consists of a magnificent and spacious bungalow veranda built of concrete, marble and mosaic. This veranda is probably the finest and most costly in this city or county, the work totaling over \$2,500. The workmanship is massive, substantial, beautiful and artistic. From this veranda one of the most beautiful and sweeping views of the Ohio river is spread before you, six miles of the placid water is seen. It is indeed a lovely picture and Mr. Pogue's elegant residence adds additional charm to the picturesque setting of Maysville as viewed from the river and railroad. This new veranda is a work of art and its beauty and workmanship is not detracted from because Mr. Pogue and his son, Henry Edgar Pogue, Jr., themselves modeled the 400 concrete blocks contained in its construction.

It will pay any one to visit the Pogue home, partake of the generous, open Kentucky hospitality, and take a look from their veranda at the picture unraveled before them of Maysville, the river and the gorgeous valley, all like a panorama in nature's choicest colors.

The work of remodeling the front of M. F. Williams' Drug Store began yesterday. When completed, this building will have one of the handsomest fronts of any business house in the city.

W. A. Thomason, a director in the Deposit Bank at North Middletown, is the juror that held out for acquittal in the Alexander case at Paris last week, according to the Bourbon News.

Mr. James Dryden of the East End has been appointed as a special agent or detective on the C. & O. and he will begin his duties at once. He will be located at Silver Grove.

Miss Margaret Gilden of West Third street, who has been very ill for several weeks, is improving slowly.

#### KILLED BY TRAIN

Farmer Sits Asleep Beside Track and Loses Life.

Sitting on a pile of ties beside the tracks of the Chesapeake & Ohio railroad at New Richmond, Ky., Wednesday morning, William C. Shepard, 62, a farmer, was killed when the step of one of the coaches struck him.

Shepard had been asleep and the approaching train awakened him. At the sound of the passing train Shepard raised up. So great was the impact that the entire top of the man's head was torn off.

Engineer Chalkley stopped the train as soon as possible and the was found lying dead beside the tracks.

#### FLEMING CIRCUIT COURT NEWS.

Dora McCarty has filed suit against the Flemingsburg Telephone Company and the Flemingsburg & Myers Station Telephone Company, asking \$5,000 damages for injuries received in the following manner: Some time in the past October as she was driving from Elizaville to Fwing, a wire of one of the lines of the defendants, which was sagged down over the roadway, caught her buggy top and pulled down a rotten pole to which the wire was attached, the pole falling across the buggy, inflicting painful injuries upon her.

Mrs. Little Branch filed suit for divorce from her husband, A. M. Branch, asking \$2,500 alimony. She alleges cruel and inhuman treatment.

Rolla Stacy has filed suit against Alie Stacy for divorce, charging abandonment.

#### WAR NEWS

#### Titanic Mix-Up Grows in Horror and Violence—Battle Reports Conflicting

#### King George On the Firing Line.

London, December 3.—King George of England, who has been visiting the British lines in Flanders, went out to the firing line today, according to a telephone message received this afternoon by the Evening News from Calais.

#### Allies' Airships Shell Krupp Works.

London, December 3.—The surprising news comes from The Hague that a dispatch has been received there declaring that an aerial raid has been made upon the great Krupp gun factory at Essen, Germany. It is the largest plant for the manufacture of munitions of war in the world. It is said that an aeroplane suddenly appeared over the buildings devoted to the manufacture of cannon and succeeded in dropping bombs. The aviators escaped uninjured. The extent of the damage done was not disclosed in the dispatch.

London, December 3.—The increasing thunder of guns in the vicinity of Ypres and the arrival at Bruges of transports bearing wounded men, lead to the conclusion in London that a greater degree of activity has prevailed in West Flanders than has been reported in the official communications.

All reports agree that in Northern Poland the battle is still undecided and fiercely contested, with the Germans making desperate efforts to resume their forward movement in the direction of Warsaw.

From Petrograd comes the report that General Rennenkampf has been made the scapegoat on account of the Napoleonic coup which enabled the German forces to cut through the encircling Russian cordon. According to this report the dilatoriness of General Rennenkampf in bringing up the reinforcements made the success of the German move possible.

#### BROWN COUNTY, OHIO

#### ALL READY FOR CHRISTIAN PRESENT TOBACCO CROP IS A MOST EXCELLENT ONE.

The managers of the Christian Church Bazaar, which will be held December 4th and 5th, wish to state that although the bazaar will be open for inspection of articles for sale at 10 o'clock Friday morning, there will be no sales until 10:30. The reason for this is that the public has been known to complain that those "on the inside" as it were, have opportunity to make purchases sometimes prior to the arrival of the crowd. To obviate this, the managers have adopted this rule, which they hope will insure complete satisfaction.

### PROHIBITION AS A NATIONAL ISSUE IN 1916.

Political leaders are viewing from all angles the evident determination of Prohibition leaders to push forward this question as an issue in the campaign of 1916.

The success that attended their efforts in four states of the west on November 3 has greatly encouraged the advocates of prohibition, and the majority of them now feel confident that by keeping it constantly before the people for the next 18 months that they will command the strength in the Democratic and Republican parties at the popular primaries for the Presidency to name candidates in each organization pledged to national prohibition.

The position of the Progressive party on this subject is fully understood.

It stands for prohibition, and in states like Ohio, Indiana, Illinois, Pennsylvania and possibly New York, by the returns of the late election, it still holds the balance of power as between the two older parties upon the popular vote of each of these states.

A leader forcing that issue in the Democratic party during the coming two years is assured of the support of nearly every southern state to start with, and the state and local leaders of those states would be absolutely powerless before the sentiment that could be aroused in the south on that subject.

Few Republican leaders in the north or the west can guarantee their party against it at a primary election, and if they should carry through to nomination a state candidate opposed to it they would have to look for Democratic votes in most of the states of the north to secure the election of such candidate, if his opponent was a Prohibitionist and the issue was fully made up.

The advocates of prohibition go upon the principle that this question can never be settled until it is settled right, and in their view it can never be settled right until it is made effective throughout the union.

From the active work still going on in Ohio after the severe defeat the Prohibitionists sustained on November 3, one can perceive that there is to be no cessation in the efforts in this state or in the nation.

The call from Nebraska and Washington for action by the Democratic party favoring prohibition as a Democratic issue is not the call of an inexperienced politician, nor has it been made without careful consideration as to the national effect. There would be no half-way house in a national contest upon this subject, and political straddlers would surely be in a very embarrassing position. It is evident that Mr. Bryan in the future will not assume that silence on this subject is golden, as he did in the late campaign in Ohio, but is preparing for an earnest and determined effort on behalf of the prohibition cause.

The prohibition organizations throughout the United States can make it interesting during the coming 18 months for the older political parties, and it is possible that the call in the Commager will force the contest of 1916 upon the line of prohibition, away from all the errors and mistakes of the present administration, if that he possible, and the attempt be made to have what is called a great moral issue demand the nomination of candidates pledged upon the question.

It is plain now, through the Commager editorials and the movements in many states, that the Prohibitionists are determined to call upon the Democratic and the Republican parties to say yes or no, as organizations, upon this subject.—Cincinnati Enquirer.

### THE DOWNTRODDEN BOSS.

There has been a great deal said in recent years on the subject of the poor, downtrodden employee. Efforts have been made to give the employee shorter hours, pleasanter surroundings and better pay for the work he does.

Such work is highly commendatory. But we would like to say a word now in behalf of the poor downtrodden boss.

Back in the coming tower of every business sits a man who controls the destiny of that business. If he turns the wheel too much to the left the business crashes into the rocks.

If he veers his ship too much to the right she comes to a dead stop in the shoals.

And the crew always escapes. It's the captain that goes down with the ship.

His helpers may think that they do his work, and perhaps they do.

But the boss is the boy that stares the pay-roll in the face fifty-two times a year.

He it is that furnishes power to keep his helpers going. Not only must he keep them going, but he acts as the governor to keep them working harmoniously.

Sometimes he doesn't work long hours, but what of that? There is always with him the consciousness that he must keep that business going somehow or other. The speaker of the annual statement is with him always. We have never heard of any union for bosses, but there ought to be one to limit the hours they work and the time they spend in thinking about the big problems of their business.

The boss ought to have some consideration. And above all he needs some play time. He ought to get away occasionally where his mind will clear and the small odors of his particular business will not assail his nostrils.—Wrote's Writings.

### A FILIPINO DELICACY.

Says Editor Sibley in the Gallipolis Tribune: "Filipinos ate 3,000 tons of grasshoppers last year. Ever lunch on grasshoppers? Swell feeding, believe us. They catch 'em and kill 'em and dry 'em, and then they are ready for the little red lane behind the taster. Kansas used to have a bonanza without knowing it in the old days when a few billions of grasshoppers would assemble on the plains. Farming grasshoppers is a profitable occupation as things go. Lawrence Haper of this city, who had many a grasshopper pie when he was in the service in the Philippines, tells us their taste is meagre but yellow, with or without cream."

### TOUGH ON THE INFANTRY.

Austrian infantry must be envying the air scouts—Vienna reports the Serbian lowlands under water and the hills covered three feet deep with snow.—Boston Herald.

### Either Will Do.

Charley Clubman—"Say, you're a lucky dog. I understand that you are practically engaged to one of those ravishing twins."

Johnny-on-the-Spot—"I guess that's about right."

Charley Clubman—"But, how do you tell them apart?"

Johnny-on-the-Spot—"I don't try to."

### Wise Judge.

Judge (to man arrested for drunkenness)—"What is your business?"

Prisoner—"Proofreader, your honor."

Judge—"Ahl I'll send you to the house of correction."

### A Woman's Reason.

"I like to have Mrs. Giddigad call."

"Is she good company?"

"Not particularly, but she is so short she can't see the dust on top of the book case."—Puck.

### Easily Identified.

"Yer little brother's lost, is he? What does he look like?"

"His face is washed an' he has a p-penny in his pocket."

### MAY PROVE FATAL

When Will Maysville People Learn the Importance of It?

Backache is only a simple thing at first.

But if you find 'tis from the kidneys.

That serious kidney troubles may follow.

That dropsy or Bright's disease may be the fatal end.

You will be glad to know the following experience.

'Tis the statement of a Maysville citizen.

Mrs. Della Lunsford, 323 E. Front St., Maysville, Ky., says: "I attributed kidney trouble to a strain. I had sharp shooting pains through my kidneys and a dragging down feeling through my hips. I had dull headaches and dizzy spells and often if I had not caught hold of something for support, I would have fallen. I was in that condition for several years, up one week and in bed the next. I finally began to notice symptoms of dropsy and in a short time I was suffering from that trouble. My feet began to swell and my hands were at times the same way. At night I was restless and always felt tired. I read of cases being cured by Doan's Kidney Pills and I got a supply. Doan's Kidney Pills saved me. I am now completely and permanently cured."

### CIVIC PROGRESS AND SOCIAL SERVICE.

Natchez, Miss., maintains a special force of city employees devoted to exterminating rats.

Half a million dollars has been spent in road building and improving in Ontario, Canada, this year.

The number of schools in the Philippines increased last year from 2,934 to 4,304, with more than 500,000 children in attendance.

Seven hundred and fifty creameries, many of them co-operative, are in operation in Ireland and yield \$20,000,000 annually.

Germany, seeking for food material, has developed a new process of drying potatoes and grinding them into meal from which good bread is made.

Big reductions in the rates of industrial insurance required by the Iowa workmen's compensation law have been announced by the stock insurance companies in that state.

The French government has issued a special Red Cross stamp having a postal value of 1d but which is sold for 1 1/2d, the extra half penny going to the Red Cross society.

National and state legislatures passed a total of 62,014 statutes during the five years from 1909 to 1913 inclusive. At the same time, 65,379 decisions were reported by national and state supreme courts.

Los Angeles, Cal., has already spent \$3,500,000 on a municipal electric light plant which will cost, when completed, between twelve and fifteen millions of dollars and will develop 80,000 to 100,000 horse power of electric energy, sufficient to furnish the city with light and power for many years to come.

### SCIENCE NOW KNOWS

#### Most Ancient of Tipples.

The most ancient of all intoxicating beverages was made from mare milk, set aside and allowed to ferment. The drink is still the favorite tipple of the Turian.

#### Animals That Never Drink.

Explorers have found in Somaliland a species of antelope which exists without water. In the desert where they live there is no source of water and the annual rainfall is less than three inches.

#### How Expensive Vanity Is.

The vanity of thousands of Chicago firms in thinking that they are too well known to give their street addresses on their catalogues and business stationery causes the postoffice extra expense, estimated at \$250,000 a year.

#### A Note So Low You Can Only Feel It.

An organ recently installed in La Well, Mass., can produce a tone an octave lower than has ever been known before. It is described as a mighty atmospheric throb of awesome majesty, and scientists declare that it must be rather felt than heard.

#### A Garage Door That Opens and Shuts Itself.

The often troublesome necessity of getting out of one's car to open and close the garage door is removed by the invention of a device which automatically operates the door and also blows a warning horn when the weight of the car establishes an electrical contact with a series of plates sunk on either side of the door.

#### IMITATING LAUDER.

Harry Lauder is putting himself on record as opposed to the so-called "imitations" of him, save "when the mimic is a genius at that sort of thing."

"Geelia Loftus is a genius. So is Elsie Janis. I may add," says Lauder, "that if either young woman has imitated me I have never heard her."

Lauder in his resentment refused to avail himself of the philosophical attitude of N. C. Goodwin, who some years ago after witnessing an alleged imitation of him in a scene from "A Gold Mine," by an aspiring young actor, left his seat with this remark: "Well, if that is an imitation of me, one of us is rotten."

This anecdote was repeated to the Scotch comedian by a San Francisco reporter and evoked this characteristic retort: "Mr. Goodwin, perhaps, was in doubt about himself; I am not. I have seen perhaps twenty of these so-called 'imitations' of the great Scotch comedian, Harry Lauder, whom you all know well. They're always applauded frantically, proving that the applauders have never seen me—and proving, also, I fear, that they never will."

#### HO-AY, SKIN-NAY, COME ON OVER.

Last Thursday was singularly full of mishaps. Mario Young, while playing on the turning bar at the school-house, fell against a tree and dislocated the cap of her right elbow. Professor Kuhlman, doing some spectacular stunts, fell and disfigured his features temporarily. Shortly afterward Rudolph Hrmodka made his daredevil dash down Wies' hill and was knocked senseless.—Gleason (Pa.) Times.

It was determined at a national meeting of Progressives in Chicago to continue the party. Colonel Roosevelt was not present.

### PAINT NOT, FIGHT ON, BE STRONG!

Be strong!  
We are not here to play, to dream, to drift;  
We have hard work to do and loads to lift.  
Shun not the struggle; face it; 'tis God's gift.  
Be strong!  
It matters not how deep, entrenched the wrong,  
How hard the battle goes, the day how long;  
Paint not—fight on! Tomorrow comes the song!  
—Malthie Babcock.

That one year of the European war will add \$500,000,000 to the foreign commerce of the United States is the estimate of the Bureau of Foreign and Domestic Commerce.

### HAD SAME COUGH FOR SEVERAL YEARS

Woman Fifty Years Old—Coughed More or Less Since Childhood—Found No Relief Until She Got Vinol.

Dayton, Ohio.—"I want everybody to know what Vinol has done for me. I am now fifty years old and ever since I was a young girl I have had a cough most of the time, and sick headaches which left me weak and with no desire for food."

"I took all kinds of medicines but nothing seemed to do me any good. Finally my druggist asked me to try Vinol, saying that if it did not help me he would refund my money. I felt so much better after taking one bottle I bought more. Now my cough is entirely cured. I have no more sick headaches. I have a good appetite and feel better than I ever did in my life, and I cannot recommend Vinol too highly."—Mrs. J. C. SCHNEIDER, Dayton, Ohio.

Vinol is not a secret nostrum, simply a combination of the medicinal elements found in cod livers, together with tonic iron, contains no oil and is delicious tasting. We ask every man or woman in this country suffering from chronic coughs, colds or bronchitis, and every weak, run-down person to try Vinol. John C. Pecor, Druggist, Maysville, Ky.

### PECULIAR.

Woman is a funny creature; There is not a doubt of that; Wears a forty-dollar feather, On a twenty-two cent hat.

And her little freaks of fancy Are accorded much renown; She will spend ten cents in car fare, Just to save two cents down town.

We can never understand her, For she plays a funny game; She is sly and eccentric, But we like her just the same.

### PIGS ARE TREATED BETTER

Than Babies By Government, Says Dr. Herman Spaulding.

Chicago.—"Now that the pigs are safe let us do something to save the babies of this country," said Dr. Herman Spaulding, of the City Health Department, in an address at the health exhibition at the City Club, in a plea for a National Board of Health.

"If the United States government took as good care of its babies as it does of its hogs the death rate of the nation would be materially reduced," continued Dr. Spaulding. "We should have a National Board of Health to supply information to the people that will be useful in preventing disease that saving human lives, as similar information from the Bureau of Agriculture now is useful in saving the lives of hogs and cattle."

"We ought to have a special medical instructor in every school to give children special courses in disease and its prevention."

### FARM AND STOCK NOTES.

Ed Turner sold to Jonas Well 400 barrels of corn at \$3 per barrel, to be delivered at the Well farm on the Bethlehem pike—Paris Kentuckian.

James M. Hutshell of Montgomery, lost two fine Percheron mares by death last week. The veterinarian pronounced the death due to worms. The mares were valued at \$400.

The racing stables of T. F. Brannon, of Paris and P. M. Civill of Lexington, including some eight or ten horses, were shipped to the New Orleans track Sunday.

One of the most promising yearling fillies ever foaled at the Patchen Wilkes stock farm, in Fayette, was sold last week to H. O. Reynolds, the millionaire mine owner of Denver. The filly is by Peter the Great, 2:07, out of a John A. McKerron mare, and a superb individual. The price paid for her was private, but was in all probability a very large one.

At Lexington, Saturday, John E. Madden sold to Miller Henderson, 11 head of thoroughbreds, which he will race at the Juarez meeting this fall. The lot consisted of six yearlings, and the older horses, Langhorne, Troy Maid, Phnetary, Clark and Distance. They were shipped that afternoon. The list of the yearlings was not given out, but was said to contain some young stars of much promise.

After having sold 450 trotting bred horses for \$145,000, the Fasig-Tipton Company brought its twentieth annual "Old Glory" auction to an end, in Madison Square Garden, at New York, Friday. The average price was about \$322, considering the disturbed business and financial conditions, and the strict quarantine regulations, now in force as to the shipping of horses, the result of the four days' sale was quite gratifying to horsemen.

### MAKING A MAN.

Hurry the baby as fast as you can; Hurry him, hurry him, make him a man.

Off with his baby-clothes, get him in pants; Peel him on brain-foods and make him advance.

Instill him, soon as he's able to walk, Into a grammar school; cram him with talk.

Fill his poor head full of figures and facts; Keep on jamming them in till it cracks.

Once boys grew up at a rational rate, Now we develop a man while you wait. Rush him through college, compel him to grab

Of every known subject a dip and a dab. Get him in business, and after the cash, All by the time he can grow a mustache;

Let him forget he was ever a boy, Make good his god and his jungle his joy.

Keep him a-hustlin' and clear out of breath, Until he whines—nervous prostration and death.

### A WISE CANINE.

(Richmond Register.)

P. B. Broadbent has a dog at his house that rivals anything in the canine line of which we have ever heard. The entire family happened to be away from home last week, the dog alone being left in the house, where he was asleep on the hearth in front of the fire. His slumbers were interrupted by some coals falling from the grate onto the rug in front of the hearth. The inflammable material at once caught fire, and the house might have been burned to the ground had it not been for the dog. He sprang to his feet like a fire department horse at the tap of the fire bell, ran to the door, opened it, and rushed at top speed to the cook's cabin, out in the yard. Yelping furiously, he attracted the attention of the servant girl, and in his eagerness to get her to the house grabbed her by the apron, and proceeded to almost pull her to the scene of the furniture conflagration. When the girl arrived at the house a good-sized hole had been burned in the floor. She at once put out the fire, and saved the day.

### FIFTY YEARS AGO IN CINCINNATI.

December 2, 1864.  
(Commercial Tribune)

The weather continues warm, the temperature yesterday ranging between 40 and 58 degrees, with light rains during the day.

The little son of George Steiner of 92 Second street met with a terrible accident at Pearl and Ludlow streets yesterday when on his way to school, when car No. 7 of the Pseudon line ran over his left leg, crushing it horribly.

The city of Cincinnati yesterday entered suit against the Ohio & Mississippi Railroad for \$103,000 in the United States court, this sum being claimed by the city as due for wharf rentals.

Miss Laura Keane and her celebrated company will be the attraction at Pike's next week, opening in "She Stoops to Conquer," Monday evening.

When Detective Larry Hazen and Officer Craven were making the rounds of thieves' "lashing news" last night they entered the New York saloon on Sixth street, between Main and Walnut, at about 8 o'clock. They had barely crossed the threshold when Johnnie Burke, alias "Hummer Johnnie," stepped up to Hazen and tried to murder him, using a revolver which was concealed in his overcoat pocket.

Fortunately the lining of the pocket caught between the hammer and the cap. The would-be assassin was overpowered and with two comrades in crime was taken to the Hammond street station.

There were ten packet arrivals and a like number of departures yesterday, among the passengers being nearly 1,000 soldiers, who are returning to the south to rejoin their commands.

The remains of Captain Shepherd Green of the Forty-ninth Ohio, who was killed at Columbia, Tenn., on the 26th, passed through the city yesterday in charge of his brother, Major W. F. Green, for Bellefontaine, where the funeral will occur.

The New York gold market closed at \$220 yesterday. Local grain market was firm, closing as follows: Wheat \$2.20, corn \$1.30, oats \$1.05.

The Cincinnati branch of the United States Sanitary Commission met last evening with Larz Anderson in the chair. Committee reports and routine business came before the meeting.

### LUKE McLUCHE SAYS

Loveless marriages are quite common. But a girl simply couldn't think of a ringless engagement.

A bad man will tell you to go to the Devil, but a bad woman will lead you there.

With some girls a clear conscience comes second to a clear complexion. Good Advice is when a man advises you to do something that you intended to do anyway.

A man is always looking for trouble. After experimenting with a motor boat and an automobile he will go and cop out a wife.

A Pittsburg woman holds that four years is long enough for any woman to live with any man. Well, if we could get a certificate entitling us to cop out a new wife every time we voted for a President, there wouldn't be any trouble in getting the men out to the polls on election day.

The rich have their troubles, too. People never waste much time trying to sting a man who has no money.

### "GRAFTING" ON NEWSPAPERS.

A Spanish grandee once observed that all royal and noble Spaniards agreed that the public was an ass and should be ridden. The only point upon which disagreement was possible was who should occupy the saddle.

All special interests agree that the American press is an ass, but there is no disagreement about who shall ride it. The various interests are in hearty agreement that every one who has need of free advertising, or "publicity," as it is called, shall make free and unlimited use of the news columns. It is due to the folly of the press that the burden of free advertising has been long and patiently borne. It is time, surely, to rebel, says the Louisville Courier-Journal in a recent editorial. The interest of the newspaper as a business enterprise; the conscience of the press as a gatherer and distributor of news; the reasonable demand of the reader that advertising shall bear a label, are influences which should combine to put an end to the riding of the ass by everybody and anybody who wants "publicity."

Even the riders are beginning, many of them, to grasp the fact that they have made inordinate demands upon good nature. The American Newspaper Publishers' Association, in Bulletin 3204, reprints a speech of E. A. Moree, representing the State Charities Association of New York at the charities conference in Philadelphia, in which it is stated that donations to fill valuable space from newspapers should be abandoned even by organizations fighting tuberculosis.

Mr. Moree is quoted as follows: "We do not ask the stationer to contribute the paper we use. We do not ask the owners of the building we occupy to contribute our quarters. But we do ask the newspapers to do the equivalent by giving us space, which is like money to them."

"Buy space. Advertise your work as business houses do, and you will get the best publicity in the world and you will ease a little of the burden that the newspapers are beginning to feel for you. If you do anything worth a penny the news papers will print it as news and with out your solicitation."

Advertising that is frankly advertising commands respect. Advertising which parades as news not only lessens the respect of the public for newspapers as vehicles of information but also breeds contempt in the mind of the reader who might, if properly approached, become interested in the enterprise, the commodity, the article the individual, advertised.

Nowadays a very considerable proportion of the readers of the press quickly recognize, and as quickly resent, "publicity articles" designed to impose upon them by passing off advertising as news.

The paid advertisement challenges attention and disarms criticism. It is an open and above-board claim for consideration; not an effort to trade upon a lack of intelligence, more often presumed than actual, among readers.

"Publicity bureaus are often so expensive that paid advertising would be less costly. The press could, and should, greatly reduce the volume of free publicity. The result would be more informing and reliable news columns. That reform would be worth more than the advertising which would supplant the free publicity masquerading as news.—American Press.

### TREAT TUBERCULOUS LOUS FAMILIES

In Homes—This Is Advice of Dr. Armstrong, Who Says Plan Is a Feasible One.

Atlanta, Ga.—A practical and economical plan has been demonstrated to treat tuberculous families in their city homes without apparent danger of spreading the infection to the well members. This announcement was made at the Southern Tuberculosis Conference here by Dr. Donald B. Armstrong, a director of the New York Association for Improving the Condition of the Poor.

For the last two years Dr. Armstrong said, his association has been demonstrating at its Home Hospital a home treatment of combined poverty and tuberculosis. During this time the association has moved from unsanitary homes in the congested tenements to the Home Hospital sixty-three needy families, in each of which one or more persons had tuberculosis. Twenty-five of these families have left the institution, seventeen containing forty-six patients, having been restored to health and made self-supporting. Eight others were dismissed for persistent intemperance or refusal to cooperate with the experiment, and the remainder are still under treatment. The permanency of the cures in the families which have left the hospital, Dr. Armstrong said, has been a satisfactory as was the progress of the patients while under treatment.

"In no instance," continued Dr. Armstrong, "has a well member of a family developed symptoms of the disease, either while at the hospital or since discharged. This is a convincing proof that although the adult patient remains at home there is little danger of infecting others if prophylactic measures are maintained. It also indicates that the degree of tuberculosis in any community is a fair index of that community's hygiene and economic status. Teach people to live properly and tuberculosis will rapidly wane."

In the fifty-three families at the Home Hospital, there have been 189 children of tuberculosis parents. Of these sixty or thirty-two per cent, already had the disease when they were admitted and another sixty-seven or thirty-four per cent, were excellent candidates for the disease. The speaker said it is probable that a similar appalling percentage holds true in thousands of tenement children. Enlarged tonsils and adenoids in many of these, he said, are believed to have been the vital predisposing cause of their condition, for, following the removal of these diseased obstructions, the children showed remarkable improvements within a few months.

The average income of the families participating in the experiment has been doubled. When admitted to the hospital the average income of each of the seventeen families which have been rehabilitated was \$6.37 a week. When these were discharged the weekly earnings per family were \$12.41.

### 1,000 BARRELS

Of Nourishing Flour For Starving Belgians Is Gift of Louisville Fund.

(Louisville Herald.)

One thousand barrels of nourishing flour!

Four thousand good cotton bags to be utilized in a land where cloth materials as well as food are at a premium.

These represent Kentucky's gift, through the Louisville Herald, to the destitute noncombatants of Belgium, and the preparation of the flour for shipment in the cotton bags is being hurried at the mills of this city.

Approximately 500 barrels were ordered from each of the local mills, which had offered to sell the flour at actual cost. It was decided to pack the flour in forty-nine-pound cotton sacks as the material used in the 4,000 sacks may be of great assistance to the thrifty housewives of stricken Belgium or might be utilized in the hospitals that are crowded with wounded soldiers.

### BLEEDING BELGIUM

Is Grieving the World—Will You Help the Flour Fund?

Those who behold the suffering during our recent flood, can have a faint idea of the terrible discomfort and agony of the people of Belgium. Our people were destitute, but surrounded by friends; they are far more destitute and surrounded by their enemies. Gladly would you give much money to save the reputation of a friend, but here is a chance to save a LIFE, with a \$5 barrel of flour.

We hope that every church and school in the county will help in this vital lifesaving work. Send or give your subscription to any of the newspapers in Maysville, or to any of our ministers. Send all clothing to the newspaper offices. Remember it is winter and some of your castaway clothes may keep some homeless person from freezing to death.

### JOY RIDING

Brooksville Boys Steal Auto—Have Smashing and Land In Jail.

(Brooksville Cor. Augusta Chronicle.) Saturday night Dewey Smith, Gyp Haley and Tom Perkins went to the garage where Will Metcalfe kept his automobile, and after loading the machine with all the gasoline and tools within reach, the trio departed for Cincinnati. After leaving here they had a blow-out and neglecting to fix the tire, ran on the rim until the wheel was a total wreck.

The boys rounded back in the county Tuesday afternoon, leaving the broken machine abandoned near Berlin. In the meantime a warrant had been issued, Haley and Smith being arrested near Berlin and brought here Tuesday night and placed in jail, but Perkins eluded the officers temporarily. The last Legislature made the taking of an automobile a most serious offense and it is quite likely that these boys will have ample time to reflect if the charge is pushed against them.

### PARK LAKE SEASON OVER.

Mayor William Dudley came in from Park Lake Monday to spend some time with his friends here, and the municipal affairs are left in the hands of Chief of Police James W. Dunaway.

Tuesday night the members of Park Lake Outing Association met for the annual election of officers for the ensuing year. The old board was re-elected, as follows: R. M. Skinner, B. B. Stone, Edwin Matthews, R. L. Dudley and Hiram Duley. R. M. Skinner was elected president, R. L. Dudley, vice president; Hiram Duley, historian, and Sam T. Collins, secretary.—Flemingsburg Times Democrat.

### THE CONDITION OF CHARLEY GATES.

The Public Ledger recently stated, on news coming direct, that Charley Gates, the unfortunate youth who had his limbs cut off by a C. & O. train, and whose mangled members were amputated below the knees at Hayswood Hospital, would again have to submit to amputation as gangrene had set in. Today was set as the time for the second amputation. Henry Gates, the boy's father, informs us that the operation has been delayed owing to the patient's weakness. He is said to be getting along nicely, but the outcome is a question.

### BISHOP HENDRIX

To Preach Sermon at the Dedication of New M. E. Church at Flemingsburg on Sunday December 20.

(Flemingsburg Times-Democrat.)  
Rev. C. J. Taggart has secured Bishop E. R. Hendrix, one of the ablest pulpit orators in the southern church, to preach the dedicatory sermon at the new church here on the 20th of December. The program for the day has not yet been arranged, but as that date will also be quarterly meeting, Rev. E. G. B. Major will be here and the bishop will probably preach at the 11 o'clock hour and at night, while Rev. Mann will preach in the afternoon at 2:30. It will also be a rally day for the Sunday school and it is hoped the enrollment may run up to the 400 neighborhood on that day. They have the room now and hope every one who feels that he or she belongs to the Sunday school there will be on hand for the opening.

**21,976 FORDS SOLD IN SEPTEMBER**

The Ford Motor Co. announces that in the month of September there were sold and delivered 21,976 Ford cars. This was a gain of 11,479 cars over September 1913. This is significant not only because it shows that the Ford production is rapidly being increased to meet the stupendous influx of orders, but also because it demonstrates that the Ford Motor Company is maintaining the 300,000 car-schedule necessary to give Ford purchasers between August 1st, 1914 and August 1st, 1915, a share of Ford profits.

We have just received a car-load of the new 1915 models, and can give you immediate delivery. There's nothing to gain by waiting, so order now and enjoy your car this fall and winter.
